## TOOLS **Vol.1** CATALOG

---

**QUALITY FIRST**

*Diagonal Cutting Pliers*

*Long Nose Pliers*

*Protech Series*

*Side Cutting Pliers*

*Minitech Series*

Made in JAPAN

Our policy that pursuit of advanced technology has made it possible to develop the high quality, and our know-how being built up in our long history is ensuring the reliability of our products. As a result, FUJIYA is known as the top brand-name in its field in the domestic and overseas markets.

### “QUALITY FIRST” and “MAKE GLOBAL FIRST CLASS PRODUCTS ADMITTED

ISO 9001 Certified in 2000 first Cutting Pliers manufacturer in Japan.

Management System ISO 9001 certified for the first time in Japan as Lineman's Cutting Pliers manufactures.

For more than 80 years as the manufacture of Lineman's Cutting Pliers, we have been pursuing quality tools through our long-year-experienced engineering power and continuous efforts of quality control.

Now we are looking at the original stance of what manufacturing is, on the other hand we are trying to comply with diversifying user's requirements by developing higher grade products.

In October 2003, our factory again got ISO 9001 (Year of 2000 Version) certification And we strongly believe as our mission that we will pursue our every activity to produce reliable tools and meet our customer's confidence.

## Meister

## History

- 1923 September :Established former company called Michimoto Iron Works by the founder Mr.Saichiro Michimoto and started production of Lineman's Pliers in Ikuno,Osaka, Japan.
- 1938 April :Registered "FUJIYA" Logo and produced "FUJIYA" brand Line-man's Pliers
- 1951 June :Approved as JIS(Japanese Industrial Standards)factory by certified No.651
- 1968 October :Constructed new Head office building in Higashi Osaka-city and removed to present premises
- 1976 March :Built new forging plant at Kano
- 1997 July :Rebuilt Osaka Head office building and warehouse
- 2000 March :First Lineman's Pliers manufacturer approved by Quality Management System ISO 9002
- 2002 September :Changed to new corporate Logo marks
- 2003 October :Approved Quality Management System ISO 9001:2000
- 2003 December :Awarded Chairman of Small & Medium Enterprises Corporation for System at production Line
- 2006 July :100 Selections of national IT Management / highest award company authorization
- 2007 October :It is election / commendation in Ministry of Economy, Trade and Industry "300 company 2007 version made with a cheerful thing"

## Technology

# Diagonal Cutting Pliers

## No. MP1-125

MINITECH NIPPER  
48 Degree edges

Double-injection handles and easy opening by spring action. Stainless body for rust-resistance and sharp cutting for extra thin wires. Recommended for every industry from professionals to hobbyists.

## No. MP3-125

MINITECH PLASTIC NIPPER  
30 Degree edges

Double-injection handles and easy opening by spring action. Stainless body for rust-resistance and sharp cutting for extra thin wires. This edge is ideal for gate cutting after plastic injection.

## No. MP4-110

Round blade  
MINITECH SMALL  
NIPPER

Small, light weight cutting plier for electronics and precision equipments industries. Ideal for cutting of super fine-wire and vinyl code. Return coil spring.

## No. MP5-110

Flat blade  
MINITECH PLASTIC  
NIPPER

Small, light weight plastic cutting plier ideal for gate cutting and removing burrs at the plastic industry and building plastic models.

## No. MP11-100

Flat blade  
MINITECH  
MINI NIPPER

Sharpened and thinned at blade head for precise cutting work and even at narrow space.

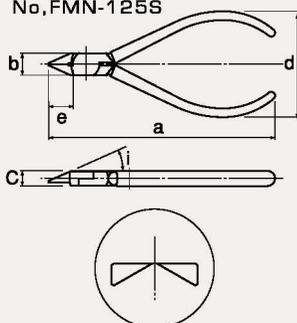

## No. FMN-125S

MINI NIPPER  
Round blade  
New antibacterial  
grip handles.

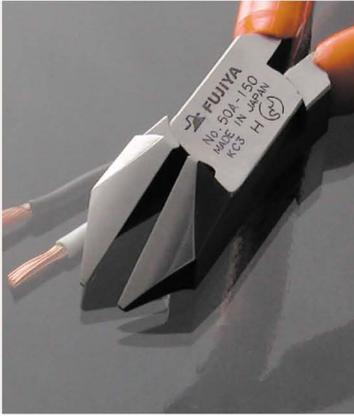

Most economical and popular Mini Diagonal cutting plier for every industry.

# Diagonal Cutting Pliers

Perfect performance for extensive applications from almost electric work, home appliances industry to Do-it-yourselfer. Our original higher technology of sharpening edges and perfect heat-treatment produces only higher cutting ability and longer durability diagonal cutting pliers.

## No.60S-125,150

STANDARD DIAGONAL CUTTING PLIERS

Coil spring

With coil spring (Also available without coil spring)light weight, raggedly formed blades for long durability.Ideal and widely used for cutting works at Electronics, Precision instruments industries.

## No.50A-100,125,150,175

DIAGONAL CUTTING PLIERS  
Dual-plates pivot

Ragged and sharp edges perform excellent cutting ability. Ideal for working on electrical appliances and wiring works.

## No.70H-150,175,200

SUPER HEAVY DUTY DIAGONAL CUTTING PLIERS

Higher hardness and cutting ability by originally blended special steel, fully and carefully controlled heat treatment blades. Most popular model for electrical wiring works, etc.

## No.770-175,200

ELECTRICIAN'S MASTER DIAGONAL CUTTING PLIERS

Easy cutting of 3-core cable

Easy cutting of Coaxial cable

Cutting capacity increased by roughly 20% by our cutting-edge technology called "Micro Mirror Blade" New design of ergonomic soft grip fit well into hand makes comfortable and cutting works. Return spring conduct easy opening-closing movement and continuous cutting work with less fatigue.

## No.707S-150

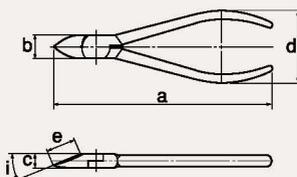

HEAVY DUTY DIAGONAL CUTTING PLIERS  
(Sharp blade)

Coil spring

Higher hardness and cutting ability by originally blended special steel, fully and carefully controlled heat treatment blades. Most popular model for electrical wiring works, etc.

# Plastic Side Cutting and End Pliers

Varieties of different models from standard economical products to thin and sharpened blades for various types of gate cutting, removing burrs of plastic products. Used new antibacterial grip handles for human-friendly.

## No.90S-110,125,150

PLASTIC NIPPER (Round blade)

ANTIBACTERIAL GRIP

Coil spring

Ideal for gate cutting and removing burrs of plastic products. Easy opening by coil spring action. Cutting ability of Model No.90S-150 increased by 20% by cutting-edge technology "MICRO MIRROR BLADE" developed by our latest engineering know-how. Used new antibacterial grip handles for human-friendly.

## No.FPN-125FS

PLASTIC NIPPER (Flat blade)

ANTIBACTERIAL GRIP

Most economical and popular models for plastic gate cutting and removing burrs.

## No.FPN-150FS

PLASTIC NIPPER (Flat blade)

ANTIBACTERIAL GRIP

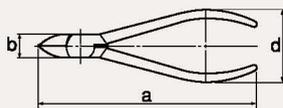

## No.FPN-125RS/FPN-150RS

# Long Nose & Short Nose Pliers

Choices of various types are available for different applications, especially assembling, repairing and disassembling works for electronics, precision equipments. Extra durability at the head area for holding and bending works.

## No.310-150

LONG NOSE PLIER

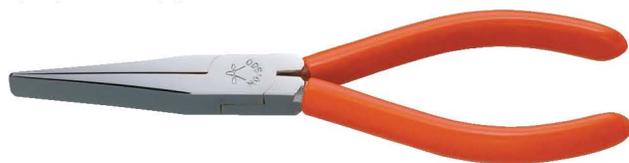

Coil spring

Made 1.2mm dia hole at the edge to remove vinyl of vinyl codes. Also plier-function can do small screw fastening and loosening.

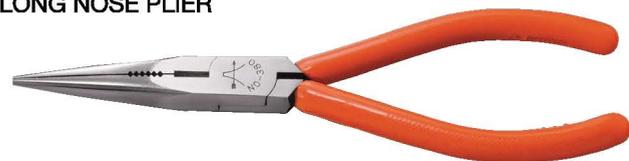

## No.360A-125,150

LONG FLAT NOSE PLIER

## No.380-170

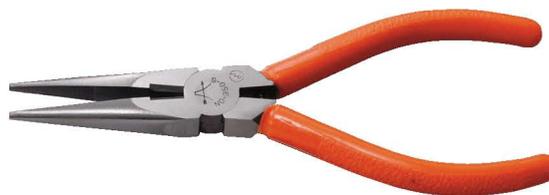

LONG NOSE PLIER

Extra thin and long head can reach complex and narrow area of precision apparatus.

## No.350S-125,150

LONG NOSE PLIER

Coil spring

Most standard type and ideal for assembling, repairing and disassembling works for electronics, precision equipments. Extra durability at the head area for holding and bending works and higher cutting capability. Easy opening with coil spring insert type which eliminates fatigue from continuous works.

## No.MP9-110

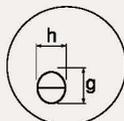

MINITECH SHORT NOSE PLIER

Coil spring

Unlike Long nose types, designed extremely thin and short nose size (f=only 18mm) with compact grip to fit into palm for more precise holding and bending works.

# Unique design & Special Purpose Pliers

“FUJIYA” offers unique design and special purpose pliers by engineering know-how through long experiences.

## No.MP6-150

MINITECH SUPER MICRO LONG NOSE PLIER

Tough-made body throughout full-top, hard to be broken and bent. Easy opening by coil spring action.

Coil spring

## No.MP7-150

MINITECH TWEEZER LONG NOSE PLIER

Extra thin and long nose like tweezers with compact grip plier for easy wiring, bending works at narrow place.

Coil spring

## No.MP8-150

MINITECH TWEEZER LONG NOSE PLIER

Extra thin and long nose like tweezers but bent head with compact grip plier for easy pick-up small components, also easy wiring, bending works at narrow place

Coil spring

## No.SP26-175

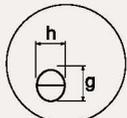

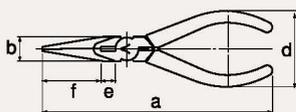

SCREW PLIER

Unique design plier for turning bolts, nuts, screws and even holding tube. Ideal for repairing works, especially loosening rusted screws or damaged screws due to double-made serrated jaws.

# SIDE Cutting Pliers

Long history more than 80 years in manufacturing pliers made as the first product for JIS (Japan industrial Standard) standard model Side cutting pliers in Japan. Selected special alloy steels through long experiences realized tough, higher cutting capability, longer durability of wide range side cutting pliers.

## No.1050-150,175,200

LINEMAN'S PLIER

Coil spring

Original model of JIS (Japan industrial Standard) and most popular and basic side cutting plier for Automotive garage tools.

## No.3000-225

(With Crimping function)

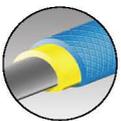

HIGH LEVERAGE LINEMAN'S PLIER

Easy cutting of 3 cored VA cables by specially-milled hexagonal hole at the reverse side of edges. 225mm is equipped with Crimping function from Crimping sizes 1.25-5.5mm.

## No.3000Z-225

ELECTRICAL WORK HIGH LEVERAGE LINEMAN'S PLIER

Coil spring

Dual-injection grip handles (inside Yellow, outside Blue colour) for more higher insulation purpose and easy identification of warning for worn-out. Easy cutting of 3 cored VA cables by specially-milled hexagonal hole at the reverse side of edges with Crimping function from Crimping sizes 1.25-5.5mm.

## No.3300-225

ELECTRICAL CRAFTSMAN

HIGH LEVERAGE LINEMAN'S PLIER

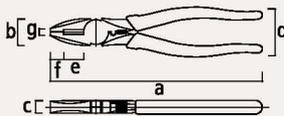

Super higher cutting ability increased by 20% by cutting-edge technology "MICRO MIRROR BALDE" developed by our latest engineering know-how. Easy cutting of 3 cored VA cables by specially-milled hexagonal hole at the reverse side of edges with Crimping function from Crimping sizes 1.25-5.5mm.

# Electrician's Tools

Selected and wide range of various electrician's tools for Electrical works, Housing construction from Professionals to general use.

## No.600-150,200,240

CABLE HANDY CUTTER

Special cutter for cutting cables for telephone construction works. Accepts to cut for Rubber, Polyurethane rods and tubes.

## No.FM03-180

ELECTRIC WORK SCISSORS

Ideal for VA VVF cables for inner and outer wiring works and plastic cable covers for wall and floor.

## No.600-500

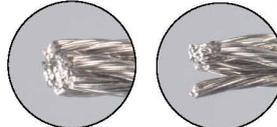

ALUMINUM HANDLE CABLE CUTTER

Ideal for cable cutting for inner and outer wiring works. Aluminum handle for light weight and beautiful alumite finish.

## No.530-190

WIRE CLIPPER

Using by wire clipper Using by conventional tool

Designed for wire cutting purpose. Easy cutting by one-hand operation.

## No.PC1-200

Set of 8 GR-attached semi-round second-cut files		
BOX containing 1 JAN 4952520403020		

Art. No.	NAME	SIZE mm
350-150	Radio pliers	150mm
505-125	Double-ply slotted nipper angular tooth	125mm
FPT01-115	Protech tweezers (Standard)	115mm
FPU-01	LED pickup tool	
FHW-107	Set of 7 Hex Key wrenches	
Case		
UM-24	Hybrid adjustable wrench	150mm
830-MG4	Set of replaceable screwdrivers	
610(+) $\times$ 100	Philips-head screwdriver	100mm
610(-) $\times$ 100	Flathead screwdriver	100mm
SK-150	Silver scale	150mm
Set of 8 GR-attached flat second-cut files		
Set of 8 GR-attached round second-cut files		
BOX containing 1 JAN 4952520403037		

No. FET-001S  
No. FET-002S  
No. FET-003S
